

A Boards, SP&N Distribution Boards, DIN Rail Enclosures

SP&N distribution boards are available from 4 to 28 outgoing ways. The range comes with a choice of either 100A 2P switch disconnect, 63A 30mA 2P RCCB or 100A 30mA 2P RCCS as well as split load options.

The range has the following features:

- Ample wiring space, with provision to accept RCBO's.
- Full complement of earth and neutral terminal bars to accept up to 25mm² incoming and 16mm² outgoing cable.
- Accepts most consumer unit accessories
- Suitable for cable entry/exit on all sides and back.
