

Berker

TS.sensor	2
B.IQ	4
S.1 B.3 B.7	6
TS / TS Crystal	9
KNX Wall Mounted Input Devices	10

With the new Berker TS Sensor you can experience a whole new world of switching. A gentle press of the finger on its glass surface is all it takes to operate lights, blinds, shutters and much more.

Sensor-controlled switching becomes a haptic experience par excellence. Unlike other switch elements, the Berker TS Sensor has been reduced to a surface that is practically flush with the wall, unbroken by any relief, raised areas or moving parts. As a result, the switch is always impressive for its puristic appearance – a true visual highlight.

Its reduction to the essential means that it can be integrated effortlessly into refined residential and building designs.

In the Basic variant the Berker TS Sensor is kept just as it is: immaculate and without labelling. In the Customized variant it is possible to choose from a set of predefined symbols and labelling to create the desired combination. In the Manufacture variant it is even possible to create a completely free, individual design, including colours, fonts and symbols.

With Berker B.IQ we make it even easier for you to control the functions of your intelligent house. Up to four function elements of the instabus EIB can be combined in a single control unit: a temperature controller, information display, tactile sensor and timer.

Lighting scenarios and other applications can be adapted to changing needs easily and without any software so simple that anyone can do it. And there are also clever details such as the transparent label strip which can simply be removed once you become familiar with the system. Or the status LEDs arranged on the side which show what functions are active at any given time. Or the display which communicates with you in plain text.

Available surfaces: brushed stainless steel, glass, polar white.

Berker S.1

- Pure, timeless, functional – the simple form of the Berker S.1 is what makes the standard range a modern classic. Winner of the iF-Award 2000 and the Good Design Award 2001, the S.1 continues to impress with superior design.

Berker B.3

- The gentle gleam of the metal and the clear lines of the Berker B.3 in real aluminium are truly impressive. The pure brilliance of the design lends your room a timeless elegance.

Berker B.7

- The classic form of the B. series, combined with the elegant glass of Berker B.7 Glas, imbues your living spaces with a very special appeal, with a clean design that fits perfectly into the most diverse interior styles. Take a clear view.
