

RCCB 3P+N 63A 30mA B+

CDB663D

Technical Properties

|                                                                          |                           |
|--------------------------------------------------------------------------|---------------------------|
| Rated current                                                            | 63 A                      |
| Rated residual operating current                                         | 30 mA                     |
| Number of poles                                                          | 4 P                       |
| Neutral position                                                         | right                     |
| Number of modules                                                        | 4                         |
| Frequency                                                                | 50 Hz                     |
| Breaking and opening capacity                                            | 800 A                     |
| Residual current type                                                    | B+                        |
| Short-time delayed tripping                                              | no                        |
| Rated conditional short-circuit current $I_{nc}$ according to EN 61008-1 | 10 kA                     |
| Depth of installed product                                               | 70 mm                     |
| Height of installed product                                              | 85 mm                     |
| Width of installed product                                               | 72 mm                     |
| Total power loss under IN                                                | 9,29 W                    |
| Operating temperature                                                    | -25 70 °C                 |
| Standard text                                                            | EN 61008-1 ; VDE 0664-400 |
